HISTORY, SERVICE AND FACILITIES

Rotor & Wing Maintenance Ltd was formed in 1980. The directors are John and Shona Hobday and both the company and facilities remain in their ownership.

Rotor & Wing Maintenance Ltd offers maintenance of:

- McDonnell Douglas 500 series
- Schweizer 300 series
- Robinson R22 & R44 Helicopters
- Eurocopter AS350
- Bell Single Engine Helicopters

We are a Robinson- approved Independent Service Centre ensuring that the sound maintenance of these aircraft is supported in New Zealand. Approval by Robinson Helicopters was initially made in 1989 and our service contract is renewed annually as required by Robinson Helicopters.

The original Rotor & Wing hangar was built in 1980. It was extended in 1991 to incorporate an equipment room, larger stores and a better staff room. It was again extended in 1997 for the purposes of Part 145 approval, to include a new component workshop, metal working bay and airframe overhaul workshop. The most recent extension was carried out in late 2003, extending the offices, stores delivery and staff facilities.
